^{*} All of the material in the site may not be capable of producing the select material or aggregate indicated and the estimated quantities available will need to be determined on a site by site basis.

- **A** = Available -Available information indicated that material meeting the current specifications was available.
- **P** = Record of Production Records indicate that this type of material had been produced in the site.
- L = Laboratory testing indicated the site may produce this type of material. Further evaluation will be necessary.
- ? = Sites where existing information indicates further investigations may find material that can be used to produce this type of aggregate.
